

These don't have
to be your hands

We have the
REMEDY.

REMEDY[®]

Improve Skin Care. Improve Health Care.

Poor skin condition often prevents practitioners from adequately washing their hands. **Remedy Skin Repair Cream is clinically proven to reduce dryness and erythema.**¹ Studies show that skin with erythema carries a larger bacteria count than healthy skin.*

* Remedy Skin Repair Cream does not have antimicrobial properties

PROTECT

chapped or cracked skin

IMPROVE

clinicians' hand condition

INCREASE

hand hygiene compliance

Remedy with Olivamine provides therapeutic skin care that:

- Restores the skin's moisture balance with moisture-retaining oils and silicones
- Helps reduce erythema and other discomforts associated with frequent handwashing including dry and rough skin
- Nourishes the skin with amino acids (the main building blocks of collagen), vitamins, antioxidants (to fight free radical damage) and methylsulfonylmethane (MSM)
- Is non-sensitizing, non-allergenic and non-irritating
- Is compatible with chlorhexidine gluconate (CHG), latex and alcohol-based hand sanitizers

Remedy offers two targeted products for hand skin care:

Skin Repair Cream – a moisturizing cream designed for every day use on dry skin to achieve a healthy feel.

Nutrashield – a skin protectant designed for extreme dryness and irritation, that will last several wash offs, protecting the skin for longer periods of time.
