Leak Guard	Yes	Yes	No	Yes
Backsheet	Plastic	Clothlike	Clothlike	Clothlike
Side Panels	Plastic	Breathable	Breathable	Breathable

All FitRight products are manufactured in Atlanta, GA, by Medline Industries, Inc.

Made in the USA

In 2011, Medline opened a brand new, state-of-the-art US manufacturing facility in Douglasville, Georgia, putting more than 200 people to work. The plant is dedicated to production of the innovative FitRight technology, inspired by thousands of care providers and individuals who dedicate their lives to improve quality of care.

The eco-friendly, high-speed machines construct and package products while the adjacent 90-dock distribution center sends them on their way to every corner of the country and around the world.

FitRight Plant, Douglasville, GA
