

EXTRASORBS™

Uncover value in protection,
care and comfort

Premium performance.
Incredible value.

The Extrasorbs drypad is designed to perform better than traditional underpads.

The advanced technology in Extrasorbs drypads pulls moisture away from the skin and locks it away in the superabsorbent core. It's designed to handle up to 1000 cc of fluid, so your patients will feel drier and be more comfortable.

The backsheet of Extrasorbs AP is air-permeable and also works with specialty mattresses like low-air-loss. However, the Extrasorbs do not allow fluid strikethrough so your bedding is protected and you'll need fewer linen changes due to leakage.

Extrasorbs pads are strong and will not bulge up or separate when wet. One Extrasorbs drypad does the job of several traditional underpads.

*Extrasorbs AP:
Air permeable
for comfort,
strikethrough-
resistant
for protection,
superabsorbent
for performance*

Item number	Description	Packaging
EXTRASRB2336A	Extrasorbs AP drypads, 23" x 36" (58 x 91 cm)	10/bag, 7 bags/cs, (70 total)
